Agreement of Service Investigation

This Service Investigation is required to establish the availability of water service at your requested location. It is applicable to ONE (1) standard size meter only. The investigation is conducted by our water operators at a fee of \$75. If we are unable to establish service at the requested location, your request will be forwarded to our engineering firm. The engineering firm charges \$250 to determine if water can be supplied at the requested location. If they determine that the water line will need to be extended to your requested location, they will provide an exhibit and cost estimate. The fee they charge for the exhibit and cost estimate is \$750. Engineering fees must be paid before the work is performed via check, money order, or cashier's check with the property address written in the Memo line.

DUE TO CONSTANT CHANGES OF LAND DEVELOPMENT, THIS SERVICE INVESTIGATION IS GOOD FOR A SIX (6) MONTH PERIOD ONLY.
